

A PLACE TO STAY

On any given night in Houston, as many as 20 children in foster care have nowhere to sleep as they await a more stable placement. This number is steadily increasing, and we must find a sustainable solution.

Fostering Family is committed to making sure the most vulnerable Houstonians have a place to stay that offers hope and healing.

THE PROBLEM

Children without a stable placement must be supervised by a caseworker 24/7 until a more permanent home is found. Some children may be without a placement for up to weeks at a time. Temporary housing options for these children are extremely limited. As a result, many are living in office buildings. These kids are in the midst of a crisis, having experienced significant loss and trauma. They need a safe place to stay, but they also need warm meals, crisis intervention, mental health professionals, educational opportunities, and mentor relationships.

OUR SOLUTION

We believe every child deserves a loving and stable home, not to mention a safe place to stay while they wait for that home. We are working with DFPS to identify home-like environments suitable for housing these children. Additionally, we are providing meals, tangible items, crisis intervention, and trauma counseling for both children and caseworkers. It is our hope to continue offering this support over the next 12 months.

FOSTERING
FAMILY

MEALS	\$15,000
